ARMSTRONG CASE UP AT DOUGLAS, WYO.

FORMER MARYVILLE BOY CHARGED WITH MURDER OF DEPUTY SHERIFF

GIVE DAMAGING EVIDENCE

Deputy Sheriff Roberts Who Was in the Raid Told of the Circumstances in Connection With It.

Special to Democrat-Forum.

Douglas, Wyo., April 13.—The court began taking evidence this morning in the trial of Hugh Armstrong, charged with the murder of Deputy Sheriff Majors at Casper, Wyo., on November 2, 1919, following completion of the jury.

Deputy Sheriff Roberts who participated in the raid and gun battle testified that he saw Majors attempting to arrest Armstrong and Roy Martin, both of whom covered the deputy with guns. Armstrong started the shooting according to Roberts by firing twice at Majors and killing him instantly.

Martin and Moore will be tried after the Armstrong trial.

Saturday's Casper, Wyo., Tribune had the following about the trial of Hugh Armstrong which was begun at Douglas, Wyo., yesterday:

The Wyoming supreme court's decision on the constitutionality of the search and seizure clause of the state prohibition law, arguments in which were closed over a week ago, may be an important factor in determining the guilt of Hugh Armstrong and Charles Moore, charged with the murder of Deputy Sheriff Tom Majors in Casper on November 2, 1919, when a verdict is reached in the trial which is scheduled to open in Douglas Monday. R. E. Martin, owner of the plumbing shop on which the raid was made that resulted in Majors' death, is held on the same charge and should the action of the district court in declaring unconstitutional the search and seizure clause be upheld, indications are that the defense will make an important point of this development. The supreme court has taken the arguments under advisement and with the beginning of the trial only one day in the offering a decision is pending.

The prosecution will seek the limit of the law, it is understood, and a score of witnesses will be called to give damaging evidence against the trio charged with the crime. The defense, likewise, is expected to bring a long list of witnesses into court but aside from the point involved in the legality of the dry law no intimation has been given as to the bulwark of the defense.

The murder of Deputy Sheriff Majors probably holds more complications than any other case ever brought to trial in Natrona county. Majors was one of a posse of seven officers led by Sheriff Pat Royce, who, informed that a bootleg cache located under a plumbing shop in East Casper was to be emptied, raided the place at about 4 o'clock in the morning. Other members of the officers' posse were Deputy Sheriffs W. E. Kilgore, George McKenzie and George Poulos, Policeman Charles Easton and Special Agent Roberts of the Burlington, now deputy sheriff of Natrona county. At the plumbing shop and in the home of R. E. Martin next door were R. E. Martin, Hugh Armstrong and Lawson Hallowell, the latter later being released. In the gun battle which ensued Majors was killed outright, McKenzie was wounded in the shoulder, and Martin's right chest was pierced by three bullets. Both of the wounded men recovered. Moore, alleged owner of the booze, and who is alleged to have placed a guard over it, was arrested later on representations that he tipped off the raid and ordered those at the shop to shoot.

Following the appointment of Attorneys Winter and Purcell as special prosecutors, W. E. Patten, then county attorney, caused the arrest of Sheriff Pat Royce and Deputy Sheriff Kilgore on charges of assault with intent to kill. Subsequent developments led to the resignation of Patten and the appointment as county attorney of Alfred R. Lowey, who ordered the dismissal of the cases against Royce and Kilgore.

Despite efforts to secure an early trial, the injuries suffered by principals in the gun fight, arguments on various phases of court procedure and the movement to secure a change of venue, finally successful, delayed the case from month to month until the trial date was set by Judge Ralph Kimball when the docket was called for the April term of court in Douglas.

Because of wide publicity given the murder and incidents surrounding it considerable difficulty is expected in securing a jury of 12 men qualified to decide the fate of the accused. G. R. Hagens and former Judge C. D. Murane of the Alaskan district court will conduct the defense.

Hugh Armstrong, who is alleged to have fired the shot that killed Majors, is a former resident of Maryville, Mo., where he is said to have come from a good family. Martin also hails from northwest Missouri where he bore a good reputation.

PRELIMINARIES OF BASE BALL CLUB UNDER WAY

Several Business Men Pledge Support Unsolicited—Comets Will Play at St. Joseph Sunday.

The Maryville Comets will go to St. Joseph Sunday to play their first game of the base ball season with the St. Joseph Stock Yards team.

Plans are under way for the organization of a base ball club in Maryville for the summer. Several of the business men have already offered to subscribe one hundred dollars to the fund and every merchant so far interviewed has expressed a willingness to close his place of business on a week day to admit of week day games instead of Sunday.

Homer Black, manager of the Comets, has been in correspondence with managers of the teams at Shenandoah, Tarkio, St. Joseph and Gentry, all of whom can be secured for week day games. It would be impossible to secure some teams for week games on account of the players being employed in institutions where they could not be released to play week days. Such teams however, are few and sufficient games could be secured with the best teams in the district, to give an excellent schedule for the season. A definite plan will be announced in a few days.

STRIKE CONDITIONS BETTER IN WEST

SEVERAL ROADS ENTERING CHICAGO LIFT FREIGHT EMBARGO

MORE SERIOUS IN EAST

Traffic Around New York Still Demoralized—Government Receiving Reports of Investigation.

Washington, April 13—The government expected to show its hand in the railroad strike situation today. Attorney General Palmer stated the government policy would probably be announced late today after complete reports had been received of investigation of the "outlaw" walkout.

New York, April 13.—Despite the fact that railroad traffic around New York is still utterly demoralized today the railroad officials profess to see betterment in the situation. They expressed the belief that the peak of the unauthorized walkout had been passed. The commuting service had been particularly hard hit against the Jersey Central which carries freight. Part of the Jersey commuters is still more or less tied up and trains running only when crews can be found to man them. The Pennsylvania is operated on a curtailed schedule. On the Erie only a few trains carrying milk and mail are operated.

Chicago, April 13—The switchmen's strike situation throughout the west appeared today to be brightening proportionately as it was reported as growing more serious in the east. In Chicago much restlessness is reported among the strikers and it is believed by railroad officials and brotherhood chiefs if back to work movement is started it will be followed by a general rush of strikers to return to jobs. All freight roads are lifted. A noticeable change for the better is shown at the stock yards. Live stock receipts approach normal and activities are resumed at all the big packing plants.

Kansas City, April 13.—The situation in the outlaw switchman's strike continued to show slight improvement today with small but steady gains from railroad strikers slowly breaking away from a walkout. Clear yards were reported by seven of twelve railroads.

SCUDDER SCHOOL DISTRICT TO HAVE NEW BUILDING

Present Quarters to be Made Into New Modern Equipped School —Has Had Successful Year.

The good results of the teaching of vitalized agriculture has been very evident in the work accomplished by the pupils of the Scudder school. For some the Scudder school district has recognized the need of a better rural school and better organized community effort.

In consequence, plans have been made to completely remodel the present school building and make of it a modern rural school in every detail.

Vitalized agriculture is the factor which has contributed more than anything else to this action on the part of the district. Several community meetings were held at the school house during the past year to demonstrate the work being done in vitalized agriculture and the patrons began thinking along the line of a better school for their boys and girls. The entire third year outlined for the teaching of vitalized agriculture has been successfully carried out in every detail. This course includes the study of live stock, feeding of live stock, dairy and poultry and the hot lunch plan. The live stock course includes twenty lessons and the poultry and dairy work fifteen lessons.

Last Thursday evening a meeting of the rural school campaign was held at the school house. A program of excellent demonstrations was given. These together with the fine exhibit of articles made by the pupils, talks by the county superintendent and patrons made a splendid program.

The financial support and the cooperation of all the people of the community is back of the school board which consists of Albert Carr, Frank Hull and Charles Moore.

Miss Bessie Dinsmore has been the teacher the past year and the success of the district has been largely due to her splendid ability and understanding of the work.

THOUGHT 3 LITTLE CHILDREN NEEDED MOTHER'S CARE

"My stomach suffering was so severe that I could not have lasted much longer. I did not care so much for myself but did not want to leave my three little children who needed a mother's love and care. A cousin in California wrote me about Mayr's Wonderful Remedy and I took a course of it. I have since been entirely well." It is a simple, harmless preparation that removes the catarrhal mucus from the intestinal tract and allays the inflammation which causes practically all stomach, liver and intestinal ailments, including appendicitis. Another Dreary Wash Day

Any wash day is dreary enough, but when the weather is bad it's twice as dreary.

But with the electric washer the washing can be done so quickly and eaily that it seems more like play than work, and it doesn't make much difference what the weather is just so you can get the washing hung out.

Some people who use the electric washer have inside drying rooms so they can wash any day,, rain or shine. But no matter how you do it, there is no way to take the drudgery out half so easily as by using the electric washer.

We are still selling the Maytag wood tub at the lowest price of any electric on the market and we also have the Thor and Maytag Cabinet Washers.

THE GIANT SHIPYARDS AT HOG ISLAND, PHILADELPHIA, ARE CONVINCING EVIDENCE OF "DIAMOND CONSTRUCTION FOR STRENGTH"

An Automobile Starting Battery Guaranteed for Two Years!

A GUARANTEE is the measure of a manufacturer's faith in his battery—based on past performance. If he guarantees his battery for only ninety days or six months or a year, he is probably sure that it will last that long. But beyond the period of the guarantee he is asking you to take a risk which he is not willing to take himself. It is unbusinesslike for you to take such a risk when you can buy a Philadelphia Diamond Grid Battery that is guaranteed for TWO YEARS.

The Diamond Grid is the framework on which each of the plates is formed. Its Diamond Construction is similar to the Diamond Construction used on the ways and cranes at Hog Island and in most other strong structures. In your battery the Diamond Grid means strong plates and is your insurance against plate trouble.

The Philco Retainer is a sheet of hard rubber closely perforated with long narrow slots. A Retainer is placed flat against the active material on each side of each positive plate. In any battery the positive active material tends to slough off as the battery grows older. The slots in the Philco Retainer are so narrow that the material cannot readily pass through them and the result is greatly prolonged battery life.
